# January 2023

## EXECUTIVE SUMMARY

January has been cooler than average with warm humid mornings and warm days and nights.

The Entrance has produced good growth and the bedding Begonias are at their best with shades of white, pink and red.

The Marigolds at the Rose garden are a good display and will finish shortly.

Link Reserve: This year we have planted many more perennials and we are just starting to see the first flowers opening of Rudbeckia and Gaillardia.

Sherwood: The Cannas have produced an abundance of shoots, foliage and flowers. Marigolds and Vinca are in full flower.

Growth in lawn is consistent due to rain and even temperatures.

Mowing of turf has been occurring frequently as growth is vigorous with the production of seed head on the Queensland Blue couch.

Due to the rain all hedges have produced new growth which have been trimmed this month.
