

RALEIGH PARK ESTATE MANAGER'S MONTHLY REPORT

June 2020

Community Association High Pressure Clean

Extensive high-pressure cleaning has been conducted around Raleigh Park Community Association. Area targeted includes pavers at the Water Race and Basin Reserve, Retaining walls at Balfour Steps location and steps in Link Park.

Water Race – Water Features

Electrical Contractor installed new Grundfos Submersible Pump to the Water Feature nearest The Serpentine. After the completion of the Water Race Retaining Walls, all three Water Features are in full operation.

Herb & Vegetable Garden Link Park

A small herb & vegetable garden has been established at the new Sandstone Retaining Walls Link Park. Residents are welcome to take what they need from the garden but are requested to pick minimum requirements to allow others to access as well.

Chris Kontis
Estate Manager
Raleigh Park Community Association
